# Closet Layout Tips

## 1. Center Stack

Install one shelf at 85-1/2 in. (2,2 m) that runs the entire perimeter of your closet to maximize upper storage. Add shelf stacks for sweaters, linens, and other items that don't hang.

## 2. Double Hang

Double hang is the quickest way to get more closet space. If your wardrobe consists of mostly skirts, shirts, slacks and blouses, you can double your hanging space. Place one SuperSlide® shelf at 85-1/2 in. (2,2 m) high and another below it at 42 in. (1,1 m) for correct double hang heights.

## 3. Long Hang

For long hang, place the shelf at 71-1/2 in. (1,8 m).

## 4. Shoe Storage

Accessible shoe storage is key to an organized closet. Choose from a variety of shoe racks that can be used on the floor, over a door, or hung from a shelf. Or, create shoe shelves using inverted SuperSlide® shelving supported by shoe shelf supports.

## 5. Storage Drawers

Use drawers to store socks, belts, purses and things that don't hang or sit well on shelves. Drawer frames are available in 30 in. (76,2 cm) and 42 in. (1,1 m) heights and drawers in 4 in. (10,2 cm), 7 in. (17,8 cm), and 11 in. (27,9 cm) depths. Allow adequate clearance for drawers, especially in closets with sliding doors.

Sketch the layout of your closet on the grid below to assist you in determining needed hardware. Refer to Closet Layout Tips for helpful information.

# Preparing Your Closet

- Set a date.** Mark a day on your calendar and set aside a few hours to de-clutter your old closet and dream about the new one.
- Break out the tape measure.** Get the necessary dimensions of the space for your new closet system. You'll need these measurements when you start to explore the possibilities.
- Get some boxes and bags.** You'll need them to sort and categorize items from your closet. Then take them to the thrift store, the attic or the curb.
- Grab the vacuum cleaner.** Those corners you haven't seen in years will need some cleaning. Once the dust has cleared, you'll be ready to reorganize.

# 1 Choose Your Shelving Type
